EXPERIENCE

Suma Soft Pvt. Ltd. -

Project 1 (ABDM) - (Live) ABDM (Ayushman Bharat Digital Mission) project, I contributed to the development of essential building blocks and APIs aimed at enhancing digital healthcare experiences for all stakeholders. This included facilitating seamless interactions between health facilities. The digital infrastructure created is now available for integration by health facilities and healthcare technology players, marking a significant step towards advancing healthcare accessibility and efficiency..

Project 2 (HRMS) - This software for efficient employee management, including salary calculations, workday tracking, and leave management. Utilized cutting-edge technologies, resulting in improved organizational structure and HR processes.

Project 3 (AIF) - (Live)Implemented Lenders feature in the project, showcasing executive profiles with ratings, photos, and feedback. Integrated functionality for liking, disliking, and commenting on profiles. Additionally, developed a Community page allowing users to upload posts with comments and like/dislike functionality, with user-specific login.

CERTIFICATIONS

Dot Net development certification - Profound Edutech Pvt. Ltd.
